

Operation Penguin Ranger

Phillip Island
**NATURE
PARKS**

**Before you meet your
ranger, let's take a
moment to think about
penguins**

What do you know about penguins?

Think of three things you already know about penguins. You can write them here, or you can draw a picture showing these three things and paste that picture here.

What do you want to know about penguins?

Think of a question about penguins you want ask a ranger and write it here.

**After you've met your
ranger, let's talk
features and
adaptations**

Little penguin features:

The ranger talked to you about some of the features penguins use to survive in a very tough environment. Choose one feature and describe how it helps little penguins to survive.

**Let's extend what you
know about features**

Super features:

Design your own 'super' feature that you think would make it easier for little penguins to survive in their environment. In the box on the left describe the feature. Put your drawing in the box on the right.
