

Seal tracking - Juveniles 2009

Deployment of the tracker on Jay at Lady Julia Percy Is

- All seals tracked this year were from Lady Julia Percy Island.
- Trackers were put on seven juvenile on 14-17 July.
- Four trackers were recovered between 22-28 September, and one on 25 October.

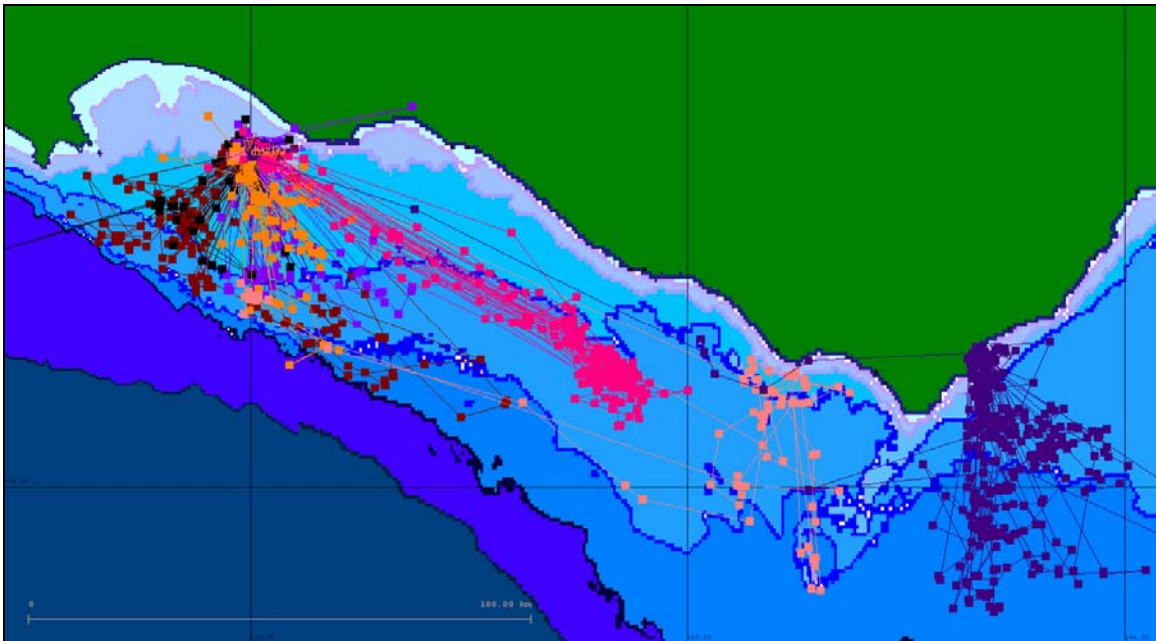

Seals	Sex	Age (yrs)	Mass (kg)	Length (cm)	Girth (cm)	Tracked (days)	Recovered
1 Julian	M	1.5	38	133	77	71	yes
2 Allanah	F	1.5	32	117	79	70	yes
3 Hayley	F	1.5	37	128	82	62	no
4 Maddie	F	1.5	23	104	70	34	yes
5 Bev	F	1.5	38	127	80	111+	no
6 Jay	M	1.5	39	124	87	101	yes
7 Ginger	F	1.5	27	109	78	67	yes

Camping at LJP

Where they went

Seals	Where they chased fish	Where they rested
Julian	<80 km SW to SE of LJP	LJP
Allanah	<60 km S to SE of LJP	LJP
Hayley	~150 km ESE of LJP	Cape Volney (western Otways) & LJP
Maddie	<30 km S to SW of LJP	LJP
Bev	<110 km ESE of LJP	LJP
Jay	~200 km ESE of LJP	Marengo Reef, Apollo Bay
Ginger	<50 km S of LJP	LJP

Map showing where the seals went and bathymetry contours (20, 40, 60, 80, 100, 200m) off the western Victorian coast.

Recovery of the tracker from Jay at Marengo Reef, Apollo Bay
